VIVIMED PRODUCT APPROVALS

Hyderabad, India, November 23, 2020 – Vivimed Labs Limited (“Vivimed” or the Company), a niche Specialty Chemicals and Pharmaceuticals company, announced today that it received approvals for 3 ophthalmic products from its state of the art sterile Ophthalmic facility and 3 oral liquid suspension products from its PICS & Health Canada approved site, both facilities are situated at Hyderabad

1. Ambroxol Hydrochloride Syrup 15mg/5ml 100ml under brand name AMBRO Kid

Uses: Ambroxol is a mucolytic agent which reduces the thickness of the sputum. It is used to treat

- Emphysema with bronchitis pneumoconiosis
- Tracheobronchitis
- Acute exacerbations of bronchitis

2. Salbutamol sulphate, Bromhexine HCl, Guaifenesin, Menthol Expectorant under brand name ASKO EXPECTORANT

Uses: Salbutamol used to treat or prevent bronchospasm in patients with asthma, bronchitis, emphysema, and other lung diseases. This medicine is also used to prevent wheezing caused by exercise (exercise-induced bronchospasm).

Bromhexine hydrochloride is used to treat breathing difficulties caused by excessive mucus secretions in the air passages associated with respiratory tract infections.

Guaifenesin (Guaiphenesin or Glyceryl Guaiacolate) is an expectorant. It usually solves over the counter and helps treat congestion in your chest and throat by the common cold, infections, or allergies. The medicine is for a cough and cold to make it easier to cough out through your mouth.

Menthol is a topical analgesic. It works by temporarily relieving minor pain.

3. Terbutaline sulphate, Bromhexine HCl, Guaifenesin, Menthol Expectorant under brand name BROXIMED EXPECTORANT 100ML

Uses: Terbutaline is used to treat breathing ailments symptoms like shortness of breath, chest tightness, wheezing etc.

Bromhexine hydrochloride is used to treat breathing difficulties caused by excessive mucus secretions in the air passages associated with respiratory tract infections.

Guaifenesin (Guaiphenesin or Glyceryl Guaiacolate) is an expectorant. It usually solves over the counter and helps treat congestion in your chest and throat by the common cold, infections, or allergies. The medicine is for a cough and cold to make it easier to cough out through your mouth.

Menthol is a topical analgesic. It works by temporarily relieving minor pain.

4. Dorzolamide Eye drops 5ml under brand name DORZOVIV

Uses: Dorzolamide is used to treat high pressure inside the eye due to glaucoma (open angle-type) or other eye diseases (e.g., ocular hypertension).
